

K.P.C. PUBLIC SCHOOL, KHARGHAR
ASSESSMENT IV – 2022-23

GRADE : I
SUB : MATHS
NAME : _____

MARKS : 50
TIME : 2 hours

Q. 1] Fill in the blanks :

[6]

- 1) The result of addition is _____
a) difference b) sum c) product
- 2) The capacity depends upon the _____ of container.
a) heaviness b) size c) both
- 3) Ten tens makes _____
a) 1000 b) 10 c) 100
- 4) A _____ is the distance from the elbow to the end of the middle finger.
a) hand span b) foot span c) cubit
- 5) Number 94 is _____ than 49
a) smaller b) greater c) both
- 6) _____ is a measure of how long or short an object is.
a) Length b) Weight c) Capacity

Q. 2] Match the following :

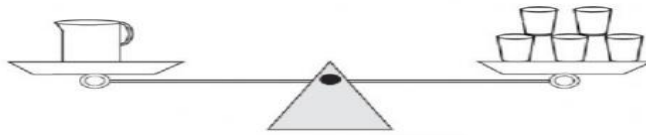

[6]

Column 'A'	Answer	Column 'B'
90		toe to the heel
Weight		how much
Increasing Order		9 Tens
Foot span		heaviness
74 comes after		smallest to biggest number
Capacity		73

Q. 3] Do as directed :

[6]

1) Write the correct number of units :

The weight of the jug is equal to _____ glasses.

2) Measure each object using paper clips and blocks :

Watch is about _____ clips long .

Fork is about _____ blocks long

3) Use $>$, $<$ or $=$ sign :

- a) 36 39 b) 82 28 c) 75 75

Q. 4] Solve the following :

[8]

1) What comes just before , just after the given number :

_____ 70 _____

2) Rearrange the scrambled words correctly and write the numeral for the number name :

a) HITGEY : _____

3) Complete the table :

Number	Number Name	Tens	Ones
_____	Sixty-seven	_____	_____
92	_____	_____	_____

Q. 5] Solve the following:

[12]

1) Arrange the numbers vertically and add :

a) $68 + 21 =$

T	O

b) $35 + 53 =$

T	O

2) Arrange the numbers vertically and subtract :

a) $97 - 17 =$

T	O

b) $64 - 33 =$

T	O

3) Arrange the numbers in increasing order :

54, 13, 83, 47

Ans: _____

4) Arrange the numbers in decreasing order :

69, 9, 27, 71

Ans : _____

Q. 6] Solve the following :

[12]

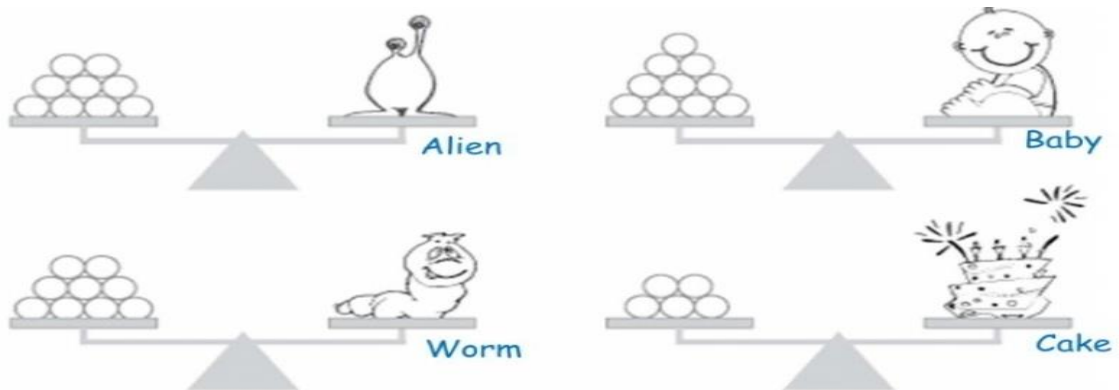

1) In a garden 32 children are playing. After some time 16 children join them. How many children are now playing in the garden ?

Ans : _____
