iii) Petrol in a car - _____ iv) Tea in a cup - _____

d) Find the weight / length:

i) 1 sack contains 25 kg of sugar. There are 2 such sacks.

Total weight = _____

ii) Length of an eraser is 3 cm. There are10 such erasers,

Total length = _____

Q.5) Solve the following: (Do as directed) (12 marks)

a) Arrange in column and multiply:

i) 12 × 2 ii) 8 × 3 iii) 53 × 3

Ans:

Ans:

Ans:

iv) 63 × 4

Ans:

v) 35 × 6

Ans:

6) Problem Solving: (9 marks)

a) A fruit seller sales 10 oranges per day. How many oranges he will sale in 8 days?

Ans:

_____

_____

_____

_____

b) Ravi eat 2 carrots in a day to improve immunity. How many carrots does he eat in 15 days?

Ans:

_____

_____

_____

_____

c) There are 32 almonds in a box. How many almonds will be there in 4 such boxes?

Ans:

_____

_____

_____

_____
